

2nd RAILS-Conference
5th April 2019, Berlin, Germany

“Governance of AI and Robotics: A European Approach?”

Participation

RAILS-Members: Free entry
Non-RAILS-Members: 59 €

Location

VKU Service GmbH
Invalidenstraße 91
10115 Berlin

“Governance of AI and Robotics: A European Approach?”

Rapid progress of AI and Robotics has triggered a worldwide debate on how to regulate autonomous systems. In April 2018, the European Commission issued a communication putting forward a „European approach to AI“. In November 2018, the German Government adopted its own strategy „AI made in Germany“. The 2nd RAILS-Conference will focus on both approaches. In addition, we will discuss the topics „Liability for Autonomous Systems“ and „Algorithmic Discrimination“.

The conference programme is divided into three panels dealing with the following topics:

Regulation Initiatives – by whom and how?

Virginia Dignum

Chair of Ethical and Social Artificial Intelligence at the Umeå University

Gabriele Mazzini

European Commission, DG Justice

European Liability Law

Wolfgang Nejdl

Full Professor of Computer Science at the University of Hanover

Gerald Spindler

Full Professor of Law at the University of Göttingen, Department of Civil Law, Commercial and Economic Law, Comparative Law, Multimedia and Telecommunication Law

Discrimination and Manipulation through Algorithms

Krishna P. Gummadi

Full Professor at the Networked Systems Research Group, Max Planck Institute for Software Systems, Saarbrücken

Martin Ebers

Associate Professor of IT Law at the University of Tartu, Estonia

Exact time slots and possible further speakers will be announced soon.
