WEROBOT 2026 | COMING NEXT SPRING: April 23 – 25, 2026 | Berlin, Germany

We Robot is an interdisciplinary, peer-reviewed conference that brings together leading scholars and practitioners to discuss legal, ethical and policy implications of robots and other emergent digital technologies. Since its inception in 2012, the conference has fostered dynamic conversations regarding robot theory, design, ethics and development.

Become a PARTNER and support a renowned conference in its European Edition

As a sponsoring partner, you can support this conference in different ways. We are interested in collaboration with academic institutions, civil society initiatives, law firms and companies in the field of Robotics and AI. Please approach us to bring this marvelous forum for responsible and trustworthy technology development to Europe and Berlin – and get to know the leading research scholars from Northern America and Europe!

Recognized as one of North America's most exciting interdisciplinary conferences on the societal implications of robotics, We Robot is now expanding to Europe, marking a significant step toward

international collaboration and practical solidarity in the academic world. We Robot 2026 in Berlin wants to encourage the exchange of diverse perspectives and academic insights from all around the world. It wants to discuss pathways towards a responsible, accessible and trustworthy use of technology for the common good.

We Robot 2026 will create an international platform to discuss current and future AI and robotics policy, especially at a time when legal frameworks are evolving in different directions around the world. A major focus of the 2026 edition will be a comparative analysis of different approaches to regulation, with the goal of fostering mutual learning and dialogue.

The conference seeks to bring together scientists, policymakers, business leaders, and the broader expert community to discuss shared strategies for managing the rapid advancements in robotics and AI.

We Robot has previously been hosted at prominent institutions such as Yale, Stanford, the University of Miami, the University of Washington, Boston University, the University of Ottawa, and the University of Windsor in Canada.
